Automotive Metrology Technology Conference 2014

Where Metrology Meets the Factory Floor

Whether you're an OEM or a Tier 1 or 2 supplier, we'll show you how Automotive-Related Manufacturing Metrology will accelerate your performance, increase productivity, improve margins, and reduce rejects. This conference will cover the changing Automotive Landscape and provide solutions from Design through Production from Metrology Experts, who can share their experiences with industry-leading companies like General Motors, Chrysler, Magna, Bodine, Borg-Warner, Ford, Honda, Toyota, and others. These technologies and solutions also work for Construction, HDT, and Off-Highway applications. Why should you attend? Here's the agenda for this important event!
